AGENDA

PRESENTATION

Another event with the support of Portici and Teramo ERFAN experts to discuss together with representative colleagues of African Veterinary Medicine and Labs, the current technology and expertise addressed to diagnosis and control of Bovine Tuberculosis. This bacterium is responsible of relevant economical loss and is strongly related to human health issues. In this ERFAN dialogues several tasks will be discussed, like eradication plan flow, in-vivo/post-mortem diagnosis, laboratory diagnostics and biosafety, future application laboratory approaches.

OBJECTIVES

The main objective is to facilitate the knowledge for the disease in different fields in order to enhance its diagnosis, control and eradication.

PARTICIPANTS

The participants will be drawn from National Veterinary Laboratories and Veterinary schools of Southern Africa and North Africa Region, IZSM Portici and Teramo, and the ERFAN Network.
