A screenshot of a Zoom meeting invitation window titled "Brucellosis Diagnosis and Control". The invitation is for Tuesday, 12 October, at 10:00 AM. It is a site event. The introduction text reads: "Introduction: The online vocational training course on Brucellosis diagnosis aims to elaborate on laboratory diagnosis of the disease: Laboratory diagnostic methods; such as, Sampling collection, Microbiological isolation and typing, using traditional methods, of Brucella spp., Molecular detection and typing of Brucella spp., including MLVA data interpretation (Bioinformatics). The course considers also elements on brucellosis prevention, control and eradication. The main objective of the ERFAN online Information day is to facilitate the refreshment of knowledge about Brucellosis for field veterinary laboratories and veterinary services in order to enhance diagnostic capabilities in the view of surveillance, control, and eradication of the disease. The working language is English with simultaneous translation into French." Below the text is a "Meeting link" section.
