PRESENTATION

The Secretariat organises the online Information Day (ID) on “*ERFAN Biosafety and Biocontainment in Laboratories*”, in collaboration with Paolo Tamborini, consultant and developer of stabling and biocontainment systems for the American company BioBUBBLE Inc. in Colorado, with which he has been actively collaborating since 2013.

OBJECTIVES

The Information Day intends to give a general introduction to biosafety and biocontainment in laboratories and provide a short presentation to the participants of the soft wall solutions.

PARTICIPANTS

The participants come from African and Italian ERFAN partner Institutions.
